- **Tools:** Android Studio, Visual Studio Code, Xcode, Flutter SDK
- **Version Control:** Git, GitHub
- **Additional:** API Integration, Agile Methodologies, Mobile App Performance Optimization, Cross Platform Development

## Professional Experience

Flutter Developer

Global Innovative – Lahore, Pakistan

2022 – 2024

- Engineered high-performance mobile applications using Flutter, delivering smooth and responsive user experiences on both Android and iOS platforms.
- Collaborated cross-functionally with product management, UX/UI designers, and QA teams to deliver feature-rich applications aligned with client requirements.
- Integrated APIs for enhanced app functionality.

- Led performance optimization efforts to ensure low-latency, high-quality app responsiveness, leveraging code profiling and memory management techniques.
- Applied Clean Architecture for scalable solutions.
- Mentored developers through code reviews and best practices.
- Followed Agile to ensure timely delivery.

## Web Development Internship

Stellavant Technologies – Lahore, Pakistan

2021

- Developed responsive web interfaces using HTML, CSS, and JavaScript.
- Implemented Bootstrap and responsive design principles.
- Conducted code reviews and optimizations to enhance website performance.
- Collaborated with designers to ensure seamless user experiences across devices.

## Education

Bachelor of Science in Computer Science

The University of Lahore – Lahore, Pakistan

2017 – 2022

## Certifications

- **Postman API Testing** – 10Pearls Pakistan, May 2024
- **Flutter Development** – 10Pearls Pakistan, May 2024

## Projects

- **FastWheel (WooCommerce Flutter)**: A comprehensive car rental and buying application based in Dubai, featuring a wheel of fortune for awarding random gifts. It's integrated with WooCommerce REST APIs to handle transactions and product management seamlessly.
- **ChatCash (Flutter)**: Built using Flutter for Android and iOS, implemented end-to-end encryption and integrated secure financial transaction systems.
- **Easy Shopping (Flutter)**: E-commerce app with features like real-time order tracking, admin functionalities, and integrated payment gateways.
- **Batwa (Flutter)**: A cutting-edge cryptocurrency wallet that ensures secure transactions and provides real-time updates on market trends and balances.
- **Blood Cart (Flutter)**: A critical application that connects users with blood donors in emergencies, facilitating timely assistance and coordination during urgent situations.
- **Creademic (Flutter)**: A specialized tool for hairdressers to connect with industry experts, offering a platform for professional networking and knowledge exchange.
- **E-Jero (Flutter)**: A dynamic cashback application that rewards users for product recommendations and referrals, designed to maximize savings and engagement.
